RECORD SET BY MOTOR STOCKS

Auto Securities Lead Both on Exchange and on Curb.

New York, June 3 .- Judging from the behavior of security prices today, the stock market had discounted pretty well on Friday whatever adverse sentiment was apt to result from the British naval defeat.

Prices were somewhat irregular at the opening, but declines were for the most part fractional, and as the session progressed, prices gave evidence of stiffen-ing. The market was a purely profes-sional one, there being no enlargement of public interest either on the buying or

on the selling side.

The chief interest in the market was centered in the pool activities in the International Mercantile Marine issues and in the motor stocks. In the latter new high records were the order of the day. both on the stock exchange and on the

Outside of the motor stocks and the marine issues there was little feature to the stock market. The rails, with the exception of Norfolk and Western, which sold at new high price of 124bs, a gain of 42 points over the previous close, were quiet and their turnover was small. Steel moved within the narrow range of 12 a point and the trading in this stock. point, and the trading in this stock was imited to 11,300 shares. London prices were only moderately de-

pressed on the news of the British defeat, but the selling movement there was a limited one. The losses in the government issues were limited to from 's in consols to 3-16 in the 4% per cent war loss.

New York, June 3.—Movements on the Broad street curb were extremely variable during the last week, with business at the beginning of the week interfered with to a great extent by the loss.

Bid Aaked.

The Anglo-French 5 per cent bonds were er pressure at the opening of the ket, declining to 305, b, below the point of Friday. They rallied short-however, to 305, where they closed. The clearing house statement showed a further decrease in the surplus reserve, that item in the report of the actual conditions now being \$55,50,340, a decrease of 40 from that of the previous week An additional gold shipment of \$2,500,000

The Promising Future **■**

of Motor Stocks

The prosperity being enjoyed by the leading automobile manufacturers is not only reflected in greater market activity for motor stocks, but also in actual and possible increased distributions of profits to stockholders. This more particularly applies to Overland Chalmers Chandler Chevrolet Studebaker Saxon Maxwell Peerless

COTTON MARKETS.

New York, June 3.—Scattered covering promoted a steadler tone in the cotton market today in the absence of fresh liquidation. There was not much feature to the tradius. Final prices showed a net gain of 4 to 10 points.

It was estimated that one interest with German connections supplied from 5,000 to 6,000 bales of July on the call today.

Spot at Literprool was quiet and unchanged on the basis of 8,535 for mid-upland. Futures in the English market closed quiet, and net unchanged to a decilite of 1% points. Spot here was quiet and 5 points higher at 12,70 for mid-upland; there were no sales. The risible supply of cotton in the world is 5,28,911 bales, against 5,20,122 bales last year, according to the Chronicle. The American supply is 2,971,011 bales, compared with 4,716,152 bales a sear ago.

Four receipts for the day were estimated at 12,000 bales compared with 8,847 bales last week and 15,225 bales last year.

CHICAGO GRAIN MARKET.

Chicago, June 3.—The cutting of wheat will be ommenced in the far Southwest in the next week, aid possibly in several syctions of Oklahoma and exas. To show that producers of this grain intend Texas. To show that producers of this grain intend to dispose of the surplus as rapidly as if is harvested and threahed is a fact, considerable wheat has already been sold in the Chicago pit, and it will be seen on the tables soon. Where round lots have been sold this grain will be brought here and delivered on contracts.

The country offerings of corn continue small. Those who believe in higher prices for corn are holding their lines because they feel that there will be a great deal of this grain replanted and that the crop in many sections is likely to be overtaken by frost and severe lowers sustained in consequence.

Athletic Field on Roof.

For the benefit of its employes, a large Philadelphia business concern has established a well-equipped athletic field on the roof of a twelve-story building occupied by it in the city's commercial district. A rectangular cinder track extends around the outer edge of the building and is used by long-distance runners, while at one end there is a fast oval, suitable for 220-yarn and 400-yard sprinters. A 100-yard straightaway has alse been pro-1014 for 220-yarn and 440-yard sprinters. A 100-yard straightaway has also been provided by utilizing one side of the oval course. Adjacent to this and entirely inclosed in large cages are two basket-ball and two tennis courts. A bowling alley and spaces for various mild forms of exercise are also provided. It is appreciated by the company that to have a highly efficient working organization every man in the force must be in physical trim. The athletic field was thus conceived. So that it may be properly used, the company allows its employes one hour in which to exercise every day the weather permits. This gives ample time for the men to put on athletic suits and go through a workout.—April Popular Mechanics Magazine.
